

# CAYUGA INDEPENDENT SCHOOL DISTRICT

March 8, 2021

Dear Wildcat Parents,

During the week of March 15-19, Cayuga ISD will be closed for Spring Break. When classes resume on Monday, March 22, the school will not require students or faculty members to wear face masks. This decision is partially based on our current understanding of the school and community's health status. It also aligns with recent announcements from the leadership of our state.

After Spring Break, the school will maintain its current efforts to promote social distance. Although students and faculty members will not be required to wear face masks, their use will still be encouraged, especially in situations where social distancing is not realistic - like riding in a school bus.

The faculty and I are thankful for the support the school has received throughout this past year as we have worked through the significant concerns related to the COVID-19 virus. Especially last spring and again at the beginning of this year, we had to make multiple adjustments to our school plans and procedures. Admittedly, it is possible that adjustments may also have to be made regarding the issues addressed in this notice. As we strive to make cautious, but reasonable, responses to health and safety concerns, the faculty and I would appreciate your continued support.

Unlike last year, we look forward to returning to school after next week's Spring Break. With your help, we also look forward to a positive, productive conclusion to the school year.

Sincerely,  
Rick Webb  
Superintendent
